Candidate’s Statement (reproduced exactly as submitted):

More than 35 years ago Susie and I chose to make Kenai our home. We still consider it the best place to live.

I have a long standing record of listening to our citizens and making informed decisions. I sincerely believe citizen input and involvement is critical in finding solutions appropriate for our community. Our recent Town Hall meetings have demonstrated the value of active participation as we work together cooperatively and creatively to make Kenai an even better place to live, work and raise a family

Kenai is on firm financial footing with one of the lowest mill rates on the peninsula. I’ve supported our bluff erosion abatement project, library expansion, airport, sewer, water, and road improvements, and encouraged retail development.

Thank you for your past support .I will continue to bring honesty, integrity, and a willingness to listen. I would appreciate your vote on Oct. 5th.
