## Candidate's Statement (reproduced exactly as submitted):

I am Alaskan by choice...I was born in Minnesota farm country, arriving to Homer, Alaska a teenager in early 1970's. Although I missed celebrating Statehood, I fully experienced living a pioneer lifestyle. We hauled water, cooked with coal, hunted, fished, and gardened. At age 21 I co-owned commercial fishing boats geared for halibut, salmon and herring. We fished Cook Inlet or Kodiak waters. Intent on University education, I commuted to UAA, graduating with distinctions in 1991. I've worked over 25 years in small business management and operation. From 1985-2011 contributed well over 15 years in administrative-public service positions. As your mayor my top priorities are pursuing your interests and strengthening the Kenai Peninsula economy. I will support

- a tax cap for property owners,
- low-cost energy solutions for homes and business,
- building the large-volume All-Alaska Gasline,
- full forward education funding from State of Alaska,
- local hire,
- good paying jobs for Kenai Peninsula workers,
- keeping local control and ownership of our hospitals, and
- **demand our fisheries be managed biologically, not politically.**

My political views are founded upon our Constitution and the unalienable rights of individuals. Freedom ~ Priceless! Debbie Brown
