Candidate's Statement (reproduced exactly as submitted):

The Kenai Peninsula Borough is a wonderful place to live, raise a family and retire. As your mayor I will do everything in my power to keep it that way.

The Mayor's job is to help develop business and education opportunities while staying within our budget. Here are a few ideas which are more fully developed on my website at www.VoteFred.us:

1. Encourage private jobs, business growth and success
2. Introduce a Revenue Cap to limit our tax burden
3. Protect our Fund Balance savings account for real emergencies
4. Advocate for Kids with more involvement in this, our largest annual expenditure
5. Revolutionize Solid Waste with new technologies now available
6. Help defeat the proposed Sales Tax increase
7. Reject changes in Term Limits for the Assembly
8. Budget for School Maintenance instead of financing with Bonded indebtedness
9. Enhance and maintain our road quality
10. Find ways to pay down our debt so we can avoid the pitfalls experienced by many other municipalities and the State and Federal governments.

I will be especially conservative when overseeing the spending of your tax dollars. My door will always be open to you. I will appreciate your vote. Thank you.
