Candidate's Statement (reproduced exactly as submitted):

I am running for the LPESA board because I believe that the Lowell Point Community, because of its separate and remote location, must have on-site emergency services, and rapid response capabilities, along with the necessary equipment for initial fire suppression, and agreements with surrounding Fire Departments, in the forms of mutual-aid agreements. The size and location of the community make the challenge of providing an on-site response team extremely difficult, and challenging, but I do not believe impossible. I believe there are lots of options that can and should be explored, to solve the needs that we have as a community. I further believe, that with the addition of some new energy to the LPESA Board, and the continued support of the Borough, we can achieve the provision of services required to make our community safer for all: residents, property owners and visitors. I ask the voters for a chance to serve our community in this important endeavor.
