Candidate’s Statement (reproduced exactly as submitted):

I’ve enjoyed learning the values of Soldotna constituents and converting such values into policy. I’ve appreciated the support of the people, council members and city staff as we’ve accomplished many of those objectives.

With no reduction in essential services, we have reduced the cost of government in Soldotna and passed on savings through a 30% reduction in property taxes.

Through the best ideas of constituents, accomplishments include the Envision 2030 comprehensive plan, river protection, the Memorial Park, the Soldotna Playground, a commitment to public safety, and the hiring of professionals key to forward progress.

There remains work to be done, including the library expansion, infrastructure improvements, sustainable planning, watershed re-vegetation, wastewater solutions and the preservation of a healthy local economy.

Hundreds deserve credit for the many accomplishments in the past three years and I would be honored to serve to help guide our great city to an even brighter future.
