

PROPOSITION NO. 3
Clarifying Service Area Powers

To be voted on by voters residing in the North Peninsula Recreation Service Area

Shall Initiative Ordinance 2004-01, clarifying the powers exercised by the North Peninsula Recreation Service Area, be adopted? This ordinance seeks to prohibit the service area from providing services that do not directly support the primary service area function of providing recreation and specifically prohibits the service area from using or committing taxpayer funds to provide for a community meeting hall, prepared food facilities, or the conversion of municipal buildings that would then be sublet to nonprofit organizations, police or other organizations in order to support any larger project underwritten by the taxpayers of the service area.

YES *[A Yes Vote would adopt the ordinance and would prohibit the service area from providing the services listed above.]*

NO *[A No Vote would defeat the ordinance and would result in no change, allowing the service area board to continue to provide services under the broad definition of recreation currently used.]*

On August 3, 2004, the Borough Clerk certified an initiative petition which seeks to limit the powers of the North Peninsula Recreation Service Area by prohibiting the service area from providing services that do not directly support what the petitioners define as the service area's primary function.

Specifically, this ordinance would prohibit the service area from using or committing taxpayer funds to provide for a community meeting hall or prepared food facilities. In addition, the ordinance prohibits the use of taxpayer funds to convert a municipal building that would then be sublet to nonprofit organizations, police or other organizations in order to support any larger project underwritten by the taxpayers of the service area.
