SUBJECT: Ordinance 2011-28, establishing the Seldovia Recreational Service Area

The community of Seldovia approached the borough to determine how to continue using the building formerly occupied by the Boys and Girls Club. This building is owned by the borough and managed by the school district as it is located on school district property. It has become an important component of the community by providing a place where recreational services are offered and the community would like to continue using it instead of allowing it to sit vacant. Upon discussing the possibility of forming a service area members of the community have taken the steps necessary to submit a petition seeking the establishment of this service area. This ordinance would establish a service area pursuant to the submitted petition. As the proposed service area will include the city of Seldovia, either the city must agree by ordinance or a majority of the voters residing inside the city and a majority of the remaining voters in the proposed service area must both approve inclusion.

Your support of this ordinance would be appreciated.
